- (c) any redeemable share capital or security issued by the company in respect of shares in the company to the extent that such share capital or security is not issued for a new consideration;
- (d) any interest or other distributions out of assets of the company in respect of securities of the company (except so much of any, of any such distribution as represents the principal thereby secured), where the securities are either—
 - (i) securities issued as mentioned in paragraph (c);

- (e) any such amount as is required to be treated as a distribution by subsection (2) or (3).

(2) Where on a transfer of assets or liabilities by a company to its members or to a company by its members the amount or value of the benefit received by a member (taken according to its market value) exceeds the amount of value (so taken) of any new consideration given by him, the company shall be treated as making a distribution to him of an amount equal to the difference.

(then or previously) on such shares after that date and not falling to be treated as distributions.

(5) In subsection (4) "relevant distributions" means so much of any distribution made in respect of shares representing the relevant share capital as apart from that subsection would be treated as a repayment of share capital, but by virtue of that subsection cannot be so treated.

FOURTH SCHEDULE

DOUBLE TAXATION REGULATIONS

PART I

PROVISIONS AS TO RELIEF FROM INCOME

TAX BY WAY OF CREDIT IN RESPECT OF

FOREIGN TAX

INTERPRETATION

1. (1) In this Part of these Regulations—

"Guyana tax" means income tax;

"foreign tax" means in relation to any country, arrangements with the Government of which have effect by virtue of section 89 of the Act, any tax chargeable under the laws of that country for which credit may be allowed under the arrangements;

"foreign income tax" means any foreign tax which corresponds to income tax; "total income" means the aggregate amount of the income of any person from the sources specified in section 5 of the Act for a year of income.

(2) Where arrangements having effect by virtue of the said section 89 of the Act provide for any tax chargeable under the laws of the country concerned being treated as income tax, that tax shall, notwithstanding anything

contained in this regulation be treated as foreign income tax, or foreign tax other than foreign income tax, as the case may be.

(3) Any reference in these Regulations to foreign tax or foreign income tax shall be construed, in relation to credit to be allowed under any arrangements, as a reference only to tax chargeable under the laws of the country with the Government of which the arrangements were made.

GENERAL

2. (1) Subject to the provisions of these Regulations where, under the arrangements, credit is to be allowed against any Guyana tax chargeable in respect of any income, the amount of the Guyana taxes so chargeable shall be reduced by the amount of the credit.

(2) Nothing contained in this regulation authorises the allowance of credit against any Guyana tax against which credit is not allowable under the arrangements.

REQUIREMENT AS TO RESIDENCE

3. Credit shall not be allowed against tax for any year of income unless the person in respect of whose income the tax is chargeable is resident in Guyana for that year.

LIMIT ON TOTAL CREDIT

4. The credit shall not exceed the amount which would be produced by computing the amount of the income of the person in question in accordance with the provisions of the Act, and then charging it to income tax at a rate ascertained by dividing the income tax chargeable (before allowance of credit under any arrangements having effect under section 89 of the Act) on the total income by the

amount of the total income.

5. Without prejudice to the provisions of the last preceding regulation, the total credit to be allowed to a person against income tax for any year of income for foreign tax under all arrangements having effect by virtue of section 89 of the Act, shall not exceed the total tax payable by him for that year.

**EFFECT ON COMPUTATION OF INCOME OF
ALLOWANCE OF CREDIT**

6. (1) In computing the amount of the income—

- (a) no deduction shall be allowed in respect of foreign tax (whether in respect of the same or any other income);
- (b) where the income tax chargeable depends on the amount received in Guyana, the said amount shall be increased by the appropriate amount of the foreign tax in respect of the income;
- (c) where the income includes a dividend and under the arrangements foreign tax not chargeable directly or by deduction in respect of the dividend is to be taken into account in considering whether any and if so what, credit is to be given against income tax in respect of the dividend the amount of the income shall be increased by the amount of

the foreign tax not so chargeable which falls to be taken into account in computing the amount of the credit; but notwithstanding anything in the preceding provisions of this paragraph a deduction shall be allowed of any amount by which the foreign tax in respect of the income exceeds the credit therefor.

(2) Subparagraphs (a) and (b) of the preceding paragraph (but not the remainder thereof) shall apply to the computation of total income for the purposes of determining the rate mentioned in regulation 4 and shall apply thereto in relation to all income in the case of which credit falls to be given for foreign tax under arrangements for the time being in force under section 89 of the Act.

7. (1) Where, in the case of any dividend, foreign income tax not chargeable directly or by deduction in respect of the dividend is, under the arrangements, to be taken into account in considering whether any, and if so what, credit is to be given against income tax in respect of the dividend, the foreign income tax not so chargeable which is to be taken into account shall be that borne by the body corporate paying the dividend upon the relevant profits in so far as it is properly attributable to the proportion of the relevant profits which is represented by the dividend.

(2) For the purposes of paragraph (1) the relevant profits are—

- (a) if the dividend is paid for a specified period, the profits of that period;
- (b) if the dividend is not paid for a specified period but is paid out of specified profits, those profits;

- (c) if the dividend is paid neither for a specified period nor out of specified profits, the profits of the last period for which accounts of the body corporate were made up which ended before the dividend became payable:

Provided that if, in a case falling under subparagraph (a) or subparagraph (c), the total dividend exceeds the profits available for distribution of the period mentioned in subparagraph (a) or subparagraph (c), as the case may be, the relevant profits shall be the profits of that period plus so much of the profits available for distribution of preceding periods (other than profits previously distributed or previously treated as relevant for the purposes of this paragraph) as equal to the excess; and for the purposes of this proviso the profits of the most recent preceding period shall first be taken into account, then the profits of the next most recent preceding period, and so on.

8. Where—

- (a) the arrangements provide, in relation to dividends of some classes, but not in relation to dividends of other classes, that foreign tax not chargeable directly or by deduction in respect of dividends is to be taken into account in considering whether any, and if so what, credit is to be given against income tax in respect of the dividends; and
- (b) a dividend is paid which is not of a class in relation to which the arrangements so provide, then, if the dividend is paid to a company

which controls, directly or indirectly, not less than one-half of the voting power in the company paying the dividend, credit shall be allowed as if the dividend were a dividend of a class in relation to which the arrangements so provide.

MISCELLANEOUS

9. Subject to the following provisions of this Schedule, the sums Guyana tax chargeable in respect of the income of any person if he elects that credit shall not be allowed in respect of that income.

10. Subject to regulation 11, any claim for an allowance by way of credit for foreign tax in respect of any income shall be made not later than six years from the year of the income and in the event of any dispute or claim to which the adjustment gives rise, being an assessment as to the amount allowable the claim shall be subject to objection and appeal in like manner as an assessment.

11. Where the amount of any credit given under the arrangements is rendered excessive or insufficient by the reason of any adjustment of the amount of any tax payable either in Guyana or under the law of any other country, nothing in this Act or in any other enactment limiting the time for making assessments or claims for relief shall apply to any assessment or claim made not later than six years from the time when all such assessments, adjustments and other determinations have been made, whether in Guyana or elsewhere, as are material in determining whether any, and if so, what credit falls to be given.

PART II**PROVISION FOR CREDIT BY WAY OF UNILATERAL**

RELIEF

1. Credit for tax paid under the law of the country outside Guyana in respect of income arising in that country shall be allowed against Guyana tax chargeable in respect of that income. Provided that where arrangements with the Government of the country are for the time being in force by virtue of section 89 of this Act, credit for tax paid under the law of the country shall not be allowed under this regulation in the case of any income if any credit for that tax is allowable under these arrangements in the case of that income.
2. Profits from or remuneration for personal or professional services performed in the country shall be deemed to be income arising in the country for the purpose of the preceding regulation.
3. Where a dividend paid by the company resident in the country is paid to a company resident in Guyana which owns not less than one-quarter of all classes of voting and non-voting stock in the company paying the dividend, tax paid under the law of the country by the first mentioned company in respect of its profits shall be taken into account in considering whether any, and if so, what credit is to be allowed in respect of the dividend.

PART III

**MODIFICATIONS OF PROVISIONS OF PART 1
APPLICABLE TO UNILATERAL RELIEF**

Notwithstanding anything in regulation 3 of Part 1 of these regulations (which provides that relief by way of credit shall be given only where the person is resident in Guyana) credit by way of unilateral relief for tax paid under the law of any country in respect of income from an office or

employment or profits the duties whereof are performed wholly or mainly in that country may be allowed against tax chargeable in respect of that income if the person is for the particular year of income, resident either in Guyana or that country.

The provisions of this paragraph shall not affect the taxation of the company on the profits out of which the dividends are paid.

3. The provisions of paragraphs 1 and 2 shall not apply if the beneficial owner of the dividends, being a resident of a Contracting State, carries on business in the other Contracting State of which the company paying the dividends is a resident, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the holding in respect of which the dividends are paid is effectively connected with such permanent establishment or fixed base. Double Taxation Relief (Taxes on Income) (Canada) Order

4. Where a company which is a resident of only one of the Contracting States derives profits or income from the other Contracting State, that other State may not impose any tax on the dividends paid by the company, except in so far as such dividends are paid to a resident of that other State or in so far as the holding in respect of which the dividends are paid is effectively connected with a permanent establishment or a fixed base situated in that other State, nor subject the company's undistributed profits to a tax on undistributed profits even if the dividends paid or the undistributed profits consist wholly or partly of profits or income arising in such other State.

5. Nothing in this Convention shall be construed as preventing a Contracting State from imposing on the earnings of a company attributable to a permanent establishment in that State, tax in addition to the tax which would be chargeable on the earnings of a company which is a resident of that State, provided that any additional tax so imposed shall not exceed 15 percent of the amount of such earnings which have not been subjected to such additional tax in previous taxation years. For the purpose of this provision, the term "earning" means the profits attributable to a permanent establishment in a Contracting State in a year and previous years after deducting therefrom all taxes, other than the additional tax referred to herein, imposed on such profits by that State.

6. The term "dividends" as used in this Article:

1. Interest arising in one of the Contracting States and paid to a resident of the other Contracting State may be taxed in that other State.

- (a) in the case of Canada, 15 percent, and
- (b) in the case of Guyana, 25 percent, of the gross amount of the interest.

In such case the provision of Article 7 or Article 14, as the case may be, shall apply.

4. Notwithstanding the provisions of paragraph 2, interest derived from sources within a Contracting State shall be exempt from tax in that State if it is beneficially owned by the Government of the other Contracting State or by an instrumentality of that other State, not subject to tax in that other contracting State on its income.

Where, however, the person paying the interest, whether he is a resident of a Contracting State or not, has in a contracting state a permanent establishment or a fixed base in connection with which the indebtedness on which the interest is paid was incurred, and such interest is borne by such permanent establishment or fixed base, then such interest shall be deemed to arise in the State in which the permanent establishment or fixed base is situated.

7. Where, by means of a special relationship between the payer and the beneficial owner or between both of them and some other person, the amount of the interest, having regard to the debt-claim for which it is paid, exceeds the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. In such case, the excess part of the payments shall remain taxable according to the laws of each Contracting State, due regard being had to the other provisions of this Convention.

8. In this Article, the term "interest" means income from Government securities, from bonds or debentures, whether or not secured by mortgage, or from any other form of indebtedness, as well as all other income assimilated to income from money lent by the taxation law of the State in which the income arises. The term shall in any case include property accessory to immovable property, livestock and equipment used in agriculture and forestry, rights to which the provisions of general law respecting landed property apply, usufruct of immovable property and rights to variable or fixed payments as consideration for the working of, or the right to work, mineral deposit sources and other natural resources; ships, boats and aircraft shall not be regarded as immovable property.

(3) The provisions of paragraph (1) of this Article shall apply to income derived from the direct use, letting, or use in any other form of immovable property and to profits from the alienation of such property.

(4) The provisions of paragraphs (1) and (3) of this Article shall also apply to the income from immovable property of an enterprise and to income from immovable property used for the performance of independent personal services.

ARTICLE 8 BUSINESS PROFITS

(1) The profits of an enterprise of a Contracting State shall be taxable only in that state unless the enterprise carries on business in the other Contracting State through a permanent establishment situated therein. If the enterprise carries on business as aforesaid, the profits of the enterprise may be taxed in the other State but only so much of them as is attributable to that permanent establishment.

(2) Subject to the provisions of paragraph (3), where an enterprise of a Contracting State carries on business

in the other Contracting State through a permanent establishment situated therein, there shall in each Contracting State be attributed to that permanent establishment the profits which it might be expected to make if it were a distinct and separate enterprise engaged in the same or similar activities under the same or similar conditions and dealing wholly independently with the enterprise of which it is a permanent establishment.

(3) In determining the profits of a permanent establishment, there shall be allowed as deductions expenses which are incurred for the purposes of the permanent establishment, including a reasonable allocation of executive and general administrative expenses incurred for the purposes of the enterprise as a whole, whether in the Contracting State in which the permanent establishment is situated or elsewhere.

(4) No profits shall be attributed to a permanent establishment by reason of the mere purchase by that permanent establishment of goods or merchandise for the enterprise.

(5) Where profits include items of income or capital gains which are dealt with separately in other Articles of this Convention, then the provisions of those Articles shall not be affected by the provisions of this Article.

ARTICLE 9

Contracting State and an enterprise of the other Contracting State, and in either case conditions are made or imposed between the two enterprises in their commercial or financial relations which differ from those which would be made between independent enterprises, then any profits which, but for those conditions, would have accrued to one of the enterprises, may be included by a Contracting State in the profits of that enterprise and taxed accordingly.

(2) Where a Contracting State includes in the profits of an enterprise of that State - and taxes accordingly - profits on which an enterprise of the other Contracting State has been charged to tax in that other State and the profits so included are profits which would have accrued to the enterprise of the first-mentioned State if the conditions made between the two enterprises had been those which would have been made between independent enterprises dealing at arm's length then that other State shall make an appropriate adjustment to the amount of the tax charged therein on those profits. In determining such adjustment, due regard shall be had to the other provisions of this Convention and the competent authorities of the Contracting State shall if necessary consult each other.

**ARTICLE 11
DIVIDENDS**

(1) Dividends paid by a company which is a resident of a Contracting State to a resident of the other Contracting State may be taxed in that other State.

LAWS OF GUYANA

218 Cap. 81:01

Income Tax

[Subsidiary] *Double Taxation Relief (Taxes on Income) (United Kingdom of Great Britain and Northern Ireland) Order*

(2) However, such dividends may also be taxed in the Contracting State of which the company paying the dividends is a resident and according to the laws of that State, but if the recipient is the beneficial owner of the dividends the tax so charged shall not exceed:

- (a) 10 per cent of the gross amount of the dividends if the beneficial owner is a company which controls, directly or indirectly, at least 10 per cent of the voting power in the company paying the dividends;
- (b) 15 per cent of the gross amount of the dividends in all other cases.

(3) The term "dividends" as used in this Article means income from shares, or other rights, not being debt-claims, participating in profits, as well as income from other corporate rights assimilated to income from shares by the taxation laws of the State of which the company making the distribution is a resident and also includes any other item which, under the laws of the Contracting State of which the company paying the dividends is a resident, is treated as a dividend or distribution of a company.

(4) The provisions of paragraphs (1) and (2) of this Article shall not apply if the beneficial owner of the dividends, being a resident of a Contracting State, carries on business in the other Contracting State of which the company paying the dividends is a resident, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the holding in respect of which the dividends are paid is effectively connected with such permanent establishment or fixed base. In such case the provisions of Article 8 or Article 16 of this Convention, as the case may be,

[Subsidiary]

shall apply.

(5) Where a company which is a resident of a Contracting State derives profits or income from the other contracting State, that other State may not impose any tax on the dividends paid by the company, except in so far as such dividends are paid to a resident of that other State or in so far as the holding in respect of which the dividends are paid is effectively connected with a permanent establishment or a fixed base situated in that other State, nor subject the companies undistributed profits to tax, even if the dividends paid or the undistributed profits consist wholly or partly of profits or income arising in that other State.

ARTICLE 12 INTEREST

(1) Interest arising in a Contracting State and paid to a resident of the other Contracting State may be taxed in that other State.

(2) However, such interest may also be taxed in the Contracting State in which it arises and according to the laws of that State, but if the recipient is the beneficial owner of the interest the tax so charged shall not exceed 15 per cent of the gross amount of the interest.

(3) The term "interest" as used in this Article means income from debt-claims of every kind, whether or not secured by mortgage and whether or not carrying a right to participate in the debtor's profits, and in particular, income from government securities and income from bonds or debentures. The term "interest" shall not include any item which is treated as a distribution under the provisions of Article 11 of this Convention.

(4) The provisions of paragraphs (1) and (2) of this

In such case the provision of Article 8 or Article 16 of this Convention, as the case may be, shall apply.

(5) Interest shall be deemed to arise in a Contracting State when the payer is that State itself, a political subdivision, a local authority or a resident of that State. Where, however, the person paying the interest, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment or a fixed base in connection with which the indebtedness on which the interest is paid was incurred, and such interest is borne by such permanent establishment or fixed base, then such interest shall be deemed to arise in the State in which the permanent establishment or fixed base is situated.

(6) Where, by reason of a special relationship between the payer and the beneficial owner or between both of them and some other person, the amount of the interest paid exceeds, for whatever reason, the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount of interest. In such case, the excess part of the payments shall remain taxable according to the laws of each Contracting State, due regard being had to the other provisions of this Convention.

(7) Any provision in the laws of either Contracting State relating only to interest paid to a non-resident company

[Subsidiary]

Double Taxation Relief (Taxes on Income) (United Kingdom of Great Britain and Northern Ireland) Order

shall not operate so as to require such interest paid to a company which is a resident of the other Contracting State to be treated as a distribution or dividend by the company paying such interest. The preceding sentence shall not apply to interest paid to a company which is a resident of one of the Contracting States in which more than 50 percent of the voting power is controlled, directly or indirectly, by a person or persons who are residents of the other Contracting State.

(8) The relief from tax provided for in paragraph (2) of this Article shall not apply if the beneficial owner of the interest:

- (a) is exempt from tax on such income in the Contracting State of which he is a resident; and
- (b) sells or makes a contract to sell the holding from which such interest is derived within three months of the date such beneficial owner acquired such holding.

(9) The provisions of this Article shall not apply if it was the main purpose or one of the main purposes of any person concerned with the creation or assignment of the debt-claim in respect of which the interest is paid to take advantage of this Article by means of that creation or assignment.

(10) Notwithstanding the provisions of paragraph (2) of this Article, interest arising in a Contracting State shall be exempt from tax in that State if it is derived and beneficially owned by the Government of the other Contracting State or a local authority thereof or any agency or instrumentality of that Government or local authority.

(5) Royalties shall be deemed to arise in a Contracting State where the payer is that State itself, a political subdivision, a local authority or a resident of that State. Where, however, the person paying the royalties, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment or fixed base in connection with which the obligation to pay the royalties was incurred, and such royalties are borne by such permanent establishment or fixed base, then such royalties shall be deemed to arise in the Contracting State in which the permanent establishment or fixed base is situated.

(6) Where, by reason of a special relationship between the payer and the beneficial owner or between both of them and some other person, the amount of the royalties paid exceeds, for whatever reason, the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. Where, however, the person, paying the technical fees, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment or a fixed base in connection with which the obligation to pay the technical fees was incurred, and such technical fees are borne by that permanent establishment, or fixed base, then such technical fees shall be deemed to arise in the Contracting State in which the permanent establishment or fixed base is situated.
